

News from Naphtali in Nigeria – October 2008

Dearly friends,

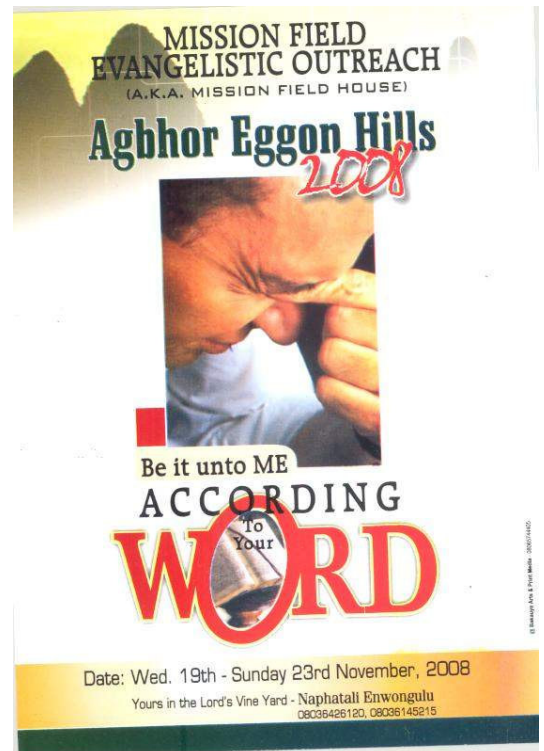

Calvary greetings to you all in the name of our Lord Jesus Christ. I hope God is helping you in your various service unto Him.

Great things have been happening for the past few months. Hundreds of recorded repentance and several places we when for ministration, ranging from open air and church revival meetings.

It has been quite great and exciting though with many challenges. We appreciate God for everything. God by His mercy has shown us fruits of the ministry day by day.

We are in an advanced state of preparation for our yearly convention which comes up on the 19th - 23rd November, 2008 at the Agbhor Eggon Hills. Once again we expect many thousands of people to come to this event and for God to do wonderful things.

Theme: **BE IT UNTO ME ACCORDING TO YOUR WORD.**

I had the opportunity to be the main speaker at the ERCC National Youth Convention. It was a great moment of visitation of the Holy Spirit upon the youths. It was also an eye opening to the dealings of the Holy Spirit on the youths and how the Holy Spirit visited the church in the past. It was exciting and overwhelming of the response of the youths. The President and the Vice President of the ERCC Church were also there, and they listened with keen interest and acceptability. We praise God. Great harvest took place during that meeting.

We solicit your prayer seriously and your support.

Please pray for the 3 fields (Ugah field, Panda field and Mada Station field) and the various discipleship centres within and around us that God is helping us to work with.

- Please pray for the resources for the missionaries that works in the various fields. For God's protection and grace over our lives.
- Please pray for me and the family, pray for the grace of God upon my life. There is a lot of demands and God open various door of ministration in various denomination churches. Even presently i'am ministring in a prayer retreat.

Yours in His Vineyard
